

# SITESMART™ GETS YOUR BUSINESS ONLINE QUICKLY

Having a website is an important part of doing business. However, creating and maintaining one can be daunting, time consuming, costly and may involve many different suppliers. SiteSmart™ offers a simple, all in one solution for your business to get you online with no fuss.

Even better, you'll have your own unique domain name and the freedom to make changes whenever you want. And with a website that is search engine friendly, customers will have a better chance of finding you.

## How your business benefits:

**Quick and easy presence online** – if you don't want any customisation, we'll get your website up, complete with images and professional copy.

**Created by experts** – benefit from the expertise of designers, copywriters, developers and SEO experts.

**A site to suit you** – choose from a range of designs that are available for entry or advanced packages. Choose a site that is ready to publish or a fully customised site. The choice is yours.

**Easy customisation** – choose from different page layouts and design elements. Change your design, edit text, update formatting or change images, even add your own HTML code if you want to, at no extra cost. Or we can do this for you for a small fee.

**Free customer support** – if you need help or have questions just call or email.

**Evolving features** – benefit from expanding functionality and templates so you can update your website using the latest features.

**Better chance of being found** – our team of SEO experts will make sure your site is optimised for search engines. This means that when your customers use popular search engines, there's a better chance they'll find you.
